

Academy for Medicine Counter Assistants

About the Academy

The Academy is designed primarily for medicine counter assistants who are interested in furthering their continuing development.

At last CPD is available for medicine counter assistants. We hope that those studying our courses will give us feedback regarding the courses and use the Buttercups interactive website to receive additional assistance with the course content.

Academy members can use the help-line for more or less 24/7 assistance from our dedicated team of pharmacists as well as having access to the password protected website.

Membership allows access to a variety of modules covering the treatment and management of minor ailments in the pharmacy. Members are issued with a username and password, giving them access to all available modules via the Buttercups website. Multiple choice questions are completed on-line and the candidate will receive immediate feedback on completion of a test or quiz. Candidates can obtain certificates for the modules they have completed by printing out their test or quiz results pages and submitting these to Buttercups, a minimum of 6 modules at a time.
