

Dispensing Academy (Technical Certificate Equivalent)

About the Academy

This Academy is designed primarily for dispensing assistants, who are interested in furthering their continuing professional development but who are not ready to commit to the full Level 3 course for pharmacy technicians.

These units allow dispensing assistants to continue to develop their skills and knowledge, which is good for them and especially good for patients. Academy members can use the help-line for more or less 24/7 assistance from our dedicated team of pharmacists as well as having access to the password protected website.

Membership of the Academy is free and gives the candidate access to a variety of correspondence courses issued in a unit form. Multiple choice questions and assignments are returned to Buttercups for assessment, or completed on-line. If the candidate chooses to complete a multiple choice assessment on-line, they will receive immediate feedback on completion of the test. All units can be purchased separately.

Candidates who progress to the full Level 3 course delivered by Buttercups can have their Academy work accredited. This must be undertaken prior to three years after completion.

Entry criteria: Qualified Dispensing Assistants

Qualification: Buttercups certificate for Continuing Education

Dispensing Academy (Technical Certificate Equivalent) Application for Membership
